PROFESSIONAL SUMMARY

Automation architect with over 15 years of experience in designing scalable test automation ecosystems for industrial automation, healthcare, logistics, and SaaS. Proficient in developing modular, distributed, and self-healing frameworks utilizing C#, Selenium, Playwright, WinAppDriver, Appium, and Rest Assured. Led agile teams of 5-6 members to drive automation strategies and collaborated with US/EU stakeholders to deliver CI-driven, high-reliability quality solutions.

SKILLS

- Automation architecture
- Parallel execution strategies
- Self-healing automation strategies
- Automation tools
- Programming languages: C#, Java
- API testing
- DevOps technologies
- Leadership skills
- Innovation management

EXPERIENCE

Senior Specialist - Quality Engineering, LTM, July 2025-Current
Bangalore, India

- Developed AI-driven Web API automation framework using prompt-based inputs to dynamically generate and execute test cases, enhancing testing efficiency.
- Architected scalable desktop automation framework using WinAppDriver + C# .NET.
- Implemented self-healing locator strategies, reducing flaky test failures by ~40%.
- Enabled fully unattended execution, minimizing manual intervention by ~70% while accelerating feedback cycles.
- Enabled prompt-to-test workflows, reducing manual scripting effort by ~60%.
- Designed distributed execution using TCP-based orchestration, improving execution scalability by ~50%.
- Built CI/CD pipelines with GitHub Actions for automated WinAppDriver regression suites, streamlining deployment process.

Lead Engineer - Technology Quality Assurance, RXO, November 2021-May 2025
Mumbai, India

- Integrated automation into CI/CD pipelines, reducing release cycle time by ~30%.
- Automated hundreds of regression scenarios across microservices modules, enhancing testing efficiency.
- Enhanced defect detection processes, achieving early detection improvement of ~35%.
- Designed scalable UI & mobile frameworks using Selenium and Appium (C#).

- Led 5-6 automation engineers, focusing on hiring and providing technical mentorship.

Technical Lead, HCL Technologies, April 2018-November 2021

Pune, India

- Led technical teams in developing tailored software solutions, addressing client needs and enhancing project outcomes.
- • Built Selenium-based automation architecture improving QA lifecycle efficiency by ~15%.
- Led sanity and regression automation initiatives.
- Mentored junior developers, fostering their coding and problem-solving skills to strengthen team capabilities.

Senior SDET - Products, Icertis, August 2017-February 2018

Pune, India

- Developed automated testing frameworks, improving software quality and reliability.
- Streamlined testing process, reducing effort by approximately 20% through enterprise SaaS automation.
- Conducted code reviews, ensuring compliance with design specifications and standards.

Senior Systems Engineer, Siemens, October 2014-August 2017

Bangalore, India

- Designed system architectures that optimized operational performance and supported business objectives.
- Collaborated with cross-functional teams to develop integration strategies for industrial automation software.
- Implemented automation tools to reduce manual tasks, thereby improving time allocation for critical projects.
- Streamlined processes to minimize manual validation tasks, enhancing overall workflow efficiency.

Senior Software Engineer, Infinite Computer Solutions, April 2014-September 2014

Bangalore, India

- Designed system architecture to enhance application performance and reliability.
- Developed, tested, and maintained software applications using .Net technologies.
- Automated validation workflows for Philips MRI systems using Coded UI (C#).

Software Design Engineer – Test , Magana Infotech, August 2013-April 2014

Bangalore, India

- Developed REST API and Selenium automation frameworks in C# to enhance testing efficiency.
- Collaborated with cross-functional teams to gather and analyze user requirements, ensuring alignment with project goals.
- Conducted code reviews to ensure adherence to coding standards and best practices.
- Managed multiple projects simultaneously, delivering results on time and meeting stakeholder expectations.

Software Engineer , Randstad, December 2012-June 2013

Bangalore, India

- Implemented automated testing frameworks to enhance software reliability and performance.
- Developed NUnit-based white-box tests to enhance test coverage and ensure software reliability.
- Troubleshoot and resolved software defects promptly, ensuring system integrity and minimizing downtime.

System Administrator , Patel Microdata Pvt. Ltd., October 2007-July 2010

Mumbai, India

- Configured and maintained server infrastructure, enhancing performance and security.
- Managed network security protocols, safeguarding sensitive information and assets.
- Implemented backup solutions to safeguard critical data against loss.
- Managed enterprise systems and automation scripts, ensuring audit compliance for Ship Design Software (Tribon M3).

EDUCATION

Master of Science

Medical Software, Manipal University, Manipal, Karnataka May 2012

BE

Information Technology, Shivaji University, Kolhapur, Maharashtra July 2007

WEBSITES, PORTFOLIOS, PROFILES

- [linkedin.com/in/anup-dharangutti-852a94129/](https://www.linkedin.com/in/anup-dharangutti-852a94129/)

INNOVATION

Filed 4 invention disclosures at client side and ~4 at parent organization across Healthcare, Engineering, and Physics domains., Contributed to innovation initiatives focusing on automation intelligence, distributed systems, and test optimization., Worked on scalable and intelligent automation approaches aligned with enterprise-grade systems.

CORE COMPETENCIES

Hybrid & Modular Frameworks, POM, Parallel Execution, Self-Healing Strategies, Selenium, Playwright, Appium, WinAppDriver, REST Assured, NUnit, C#, Java, Python, REST Automation, Contract Testing, Schema Validation, GitHub Actions, Jenkins, TeamCity, Azure DevOps, AWS (Exposure), Azure Cloud (Exposure), Test Strategy, Agile Delivery, Hiring, Stakeholder Communication (US/EU)
